## Schools and nurseries – our best EVER savings!

### Let's get it together!

Dear Teacher,

Now, at last, you really can beat the bugs... with the award-winning Nitty Gritty NitFree Comb.

It's quick and easy to use, works with any hair conditioner instead of nasty chemicals, and it gets everything out – not just head lice, but nits (empty egg cases) and 'live' head louse eggs too.

Just one NitFree is all you need to check and protect a whole family. It's made by mums, kind to kids and guaranteed for life. If you ever break it, just send it back to us and the Nitty Gritty mums will send you a brand new NitFree to replace it.

We believe that every child and teacher in Britain deserves their very own NitFree Comb. That's why we are offering you our best ever school discounts, on any order of six or more NitFree Combs. You're going to love it.
