

Editor Recommendation:

GOT HEAD LICE AGAIN???

Are you fed up of spending out on bottles of solutions only to have your children re-infested a few weeks later?

Head lice are now considered a normal part of every day life for parents with school-age children, but even if we cant

eradicate them completely, or prevent them from coming back, we can keep on top of them easily without the added expense.

We use the Nitty Gritty Comb in combination with whatever hair conditioner we are using at the time. It takes only a minute to run the comb through your kids hair at bath time.

You can buy the combs from most high street chemists or online

from from www.nittygritty.co.uk
